REASONS FOR ALLOWANCE

1. Claims 1-25 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1-25 are allowable because none of the prior art discloses a system/method for high voltage testing of twisted insulated conductors, comprising a transmitter disposed within a rotating mechanism of a twinner for transmitting an electromagnetic wave signal carrying information representative of fault detection characteristics of the twisted insulated conductors, the information being derived from the sparks generated between an electrode and the twisted insulated conductors; and a receiver disposed outside of the rotating mechanism for receiving the electromagnetic wave signal from the transmitter, and in the combination as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Falk et al. (U. S. Patent No. 5, 433,014) discloses a transmitter for transmitting measurements to a remote location.

Art Unit: 2858

Lanzara et al. (U. S. Patent No. 5, 712, 889) discloses transmitting a signal by infrared or RF means.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Amy He whose telephone number is (571) 272-2230. The examiner can normally be reached on 8:30am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eddie Lefkowitz can be reached on 571-272-2180. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
